

MUSCATINE COUNTY CONSERVATION BOARD
TRUAX NATIVE GRASS DRILL
RENTAL AGREEMENT

The Truax Native Grass Drill is a specialized drill-seeder for the establishment of prairie plants. The Muscatine County Conservation Board currently has a Truax Flex II Drill available for rent. Since this drill was purchased for the primary purpose of seeding along roadsides and on wildlife management areas in Muscatine County it is only six (6) foot wide.

The rental fee established by the Conservation Board for this drill is \$15.00 per acre and \$15.00 per day (24 hours) with a \$75 minimum charge. A \$100.00 damage/cleanup deposit is also required in advance for use of the drill.

As user of the Truax Flex II Drill I, _____, agree to the following:

1. To pay the deposit in advance. Deposit will be refunded when equipment is returned undamaged, cleaned and greased, and has been inspected by Conservation Board staff familiar with the equipment. The charge will be \$50 if the drill is returned dirty and a \$25 charge if seed is left in the boxes.
2. To pay an additional \$15.00/day (24 hours) for delay of returning the drill on the completion date unless the Conservation Board has been notified of the delay and agrees that the delay is weather or equipment related.
3. To furnish a vehicle to transport drill to and from the Conservation Board shop at the Saulsbury Bridge Recreation Area. To pick up the drill between the hours of 8:00 - 8:30 a.m. or 3:30 - 4:00 p.m. Monday-Friday.
4. To notify the Conservation Board office (563) 264-5922 immediately if the drill is broken or damaged during use.
5. The Muscatine County Conservation Board, as owner of the Truax Native Grass Drill, is not responsible for accidents nor assumes any liability in connection with the use of the equipment. As with any type of farming operation success of establishment is not guaranteed. Planting dates, weather, seed, etc. are all determining factors.
